OMEX

OMEX is the market leader in liquid fertilisers in the UK, manufacturing and exporting a unique range of plant nutrients and crop health promoters nationally and internationally.

We currently have an exciting opportunity to join the OMEX team as a Laboratory Technician. The purpose of the role will be to carry out laboratory testing and QC based testing along with some project work and other laboratory-based functions that may be required.

Key Responsibilities

- **During the first 6-9 months of this role regular travel to our Kings Lynn site will be required. Any travel costs and hotel stays will be covered by OMEX.**
- Chemical Analyses and Reporting of results
- Equipment maintenance
- Quality control of products
- Evaluation of raw materials
- Documenting test results
- Labelling and storage of samples
- Developing new formulations
- Working in accordance with good laboratory practice and guidelines

Qualifications, Skills and Experience

- A degree in chemical sciences is preferred but not essential. The right experience will be considered.
- General analytical chemistry knowledge is essential, producing reliable test results
- Strong level analytical skills
- Demonstrable capability of working with complex mixtures
- Experience in ICP is an advantage but not essential as training will be provided
- Successful development and completion of self-directed projects
- Knowledge of MS Office (Word, Excel, Outlook)
- Effective communication of laboratory results
- Excellent time management and organisational skills
- A good team worker demonstrating loyalty and commitment to the organisation and other team members
- Self-motivated, energetic, dependable with a clear attention to detail
- Be flexible with working hours when required in order to deliver the service required by our customers.

Benefits:

- Company events
- Company pension
- Discounted or free food
- Life insurance
- On-site parking

- Private medical insurance

Schedule:

- Monday to Friday, 40 hours per week

Vision Strategy

<p>Omex: Optimising Life's Essentials</p>	<p>Our vision is to optimise life's essentials – food, energy and water – so people and planet can thrive for generations to come.</p> <p>We do this through cutting edge, science-driven solutions that nourish soils and crops, power cleaner energy and purify water – turning vital resources into resilient systems to ensure we can all flourish in a changing world.</p>

Values

<p>Be in it for the long term.</p>	<p>The best results come from long lasting relationships. So, think beyond the quick win. Invest in trust. Be there, be steady. And create value that endures.</p>
<p>Embrace the challenge, see the opportunity.</p>	<p>A challenge is simply opportunity in progress. With curiosity, agility and a can-do mindset, we turn obstacles in better ways forward for our colleagues, customers and communities.</p>
<p>Roll up your sleeves & pursue excellence.</p>	<p>We're all in and committed to quality. We bring energy, passion and high standards to everything we do. By giving our best and working as a team, we deliver excellence that helps our world thrive.</p>
<p>Grow together, whether the weather.</p>	<p>Storms pass, but strong partnerships endure. We learn continuously, support each other, and grow stronger by sticking together through every season.</p>
<p>Do the right thing. Always.</p>	<p>We put people first – customer, colleagues, and partners. Acting with integrity empathy and respect, even when it's hard is how we earn trust and build lasting relationships.</p>
